## K-LITE illuminating landscapes with high-quality architectural luminaires

*Operating through state-of-the-art manufacturing facilities, K-LITE focuses on sustainable and energy-efficient LED technology.*

**K**-LITE, established in 1977, is a pioneer in the design and manufacture of high-quality architectural luminaires and lighting poles. With decades of expertise, it has earned a reputation for delivering reliable, aesthetically refined lighting solutions that cater to a wide range of design preferences and functional requirements.

**Sustainable manufacturing, timeless design**

Operating through state-of-the-art manufacturing facilities, K-LITE focuses on sustainable and energy-efficient LED technology. Every luminaire is engineered to meet stringent international quality standards while embodying architectural elegance and design precision.

**Built to withstand the elements**

K-LITE's landscape and outdoor lighting solutions are purpose-built for rugged environmental conditions, capable of withstanding wind, water, direct sunlight, rain and dust.

All products feature high IP and IK ratings, ensuring superior protection against ingress and impact. This makes them ideal for demanding outdoor and landscape applications.

**Comprehensive product range**

K-LITE offers one of the most diverse and versatile lighting portfolios in the industry, encompassing a comprehensive

range of solutions such as linear wall washers, up-down lighters, LED strips and neon flex, promenade lighting, bollards and pathway lights, underwater luminaires, post-top luminaires, bulkheads and pathfinders, IP67 linear profiles, and polar lighting poles.

Further strengthening its offering, K-LITE has recently introduced a new façade lighting series, designed to meet the evolving architectural and urban illumination requirements with efficiency, durability, and aesthetic precision.

**Lighting with purpose and beauty**

Every K-LITE product represents a perfect blend of functionality and design excellence. Whether illuminating walkways, enhancing architectural façades, or creating ambience in public spaces, K-LITE luminaires consistently deliver superior illumination, long-lasting durability and architectural aesthetic enhancement.

Trusted by architects, landscape designers, and urban developers, K-LITE continues to transform spaces with lighting solutions that seamlessly integrate form, function, and beauty.
